Hungary, Slovenia and Croatia.

### The companies of the EMOS group are part of the multinational Legrand group

Legrand is the global specialist in electrical and digital infrastructures, offering high-value-added products and solutions that improve lives by transforming the spaces where people live, work and meet. Present in nearly 90 countries with a total workforce of over 38,200 employees, the Group works to enhance electrical and digital building infrastructures, helping to digitalize them and shrink their carbon footprint. And Legrand has solutions for every type of building-residential buildings, data-centers, and other non-residential buildings; as well as industrial spaces and infrastructures. The Group's technological expertise, its leading positions, the breadth and variety of its offering, its international presence and the power of its brands combine to make Legrand a global pacesetter.

# Christmas LED Lights CONNECT SYSTEM

Light up any occasion! Whether it's decorating your home for Christmas or creating a magical atmosphere at weddings and parties. The connect lighting system offers endless decorating possibilities. The basic elements of the connect system STANDARD and PROFI are power supplies (A), extension cables (B) and lighting elements (C), which can be interconnected and combined with each other. This type of lighting is the ideal choice for spectacular outdoor decorations where conventional chain lengths are not sufficient.

# Christmas and Decorative LED LIGHTS

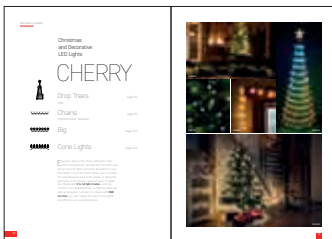

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO - CLASSIC - CHERRY - TRADITIONAL and GARLANDS. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

# Christmas and Home LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

D1CN01

D1CD01

D1EW01

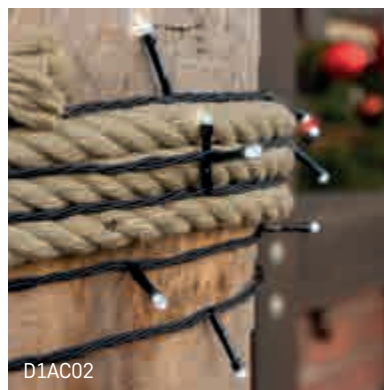

The STANDARD connect system is suitable for indoor and outdoor use thanks to its IP44 protection rating, but only in season, not all year round. The advantage of this connection system is the wide range of light elements (C) in several different colours. Although the most popular Christmas light is the chain, in the connecting system you can choose according to your own design preferences from icicles, curtains, nets or stars for the top of the Christmas tree. Up to **800 LED** lights can be powered from a single power supply (A) connected to extension or splitter cables (B) and light elements (C).

The PROFI connect system is characterized by increased material durability and an extended 3-year warranty. The high quality rubber cables allow year-round installation without the need for disassembly in any temperature conditions. The individual elements of the system are freely interconnectable, which allows the realization of even very large lighting projects, especially in the exterior. Up to **500 LED** lights can be powered from a single power supply (A) connected to extension or splitter cables (B) and light elements (C).

STEP 1: PREPARATION

STEP 2: INSTALLATION

STEP 3: ENJOY THE LIGHTING

POWER SUPPLY  
+ TIMER

D1ZW02

D1ZB05

- 1 Power supply has a built-in timer. After the first press of the button, the chain will shine continuously.

- 2 After the second press (green light comes on) the timer is set to 6 hours. Then it will turn off automatically for 18 hours.

At these intervals (6 hours on/18 hours off) it will work automatically until you press the button for the third time.

# LED LIGHTS

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO - CLASSIC - CHERRY - TRADITIONAL and GARLANDS. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

Christmas **NANO** chains are an elegant accessory that will surely become your reliable helper when creating Christmas arrangements and decorating your interior. Thanks to the fine, ultra-thin wire, the lights in the chain stand out beautifully and can be used to decorate various parts of your home, including the festive table. The copper wire can be bent to your own preference so you can wrap the lights around an Advent wreath or your favourite figurine on a shelf. Stylish decoration and pleasant illumination is also provided by the chain when placed in a jar or lantern. The universal NANO lights are therefore the obvious choice for creating a cosy atmosphere at various festive occasions.

*page 86*

To create a true festive atmosphere, the lights on the Christmas tree are indispensable. Whether you decide to use them indoors to brighten up the whole apartment or outdoors as a decoration for the bush in front of the house, the **Classic** series with screen adapter is a great choice in terms of the very wide range of lengths and colours. Selected chain types have 8 to 64 light modes or a remote control. Also lights with a timer function are very practical, which can light up the tree at regular intervals and you don't have to worry about switching them on and off every day.

### Cone Lights

*page 102*

Everyone will love the **Cherry** LED lights! Their white orbs perfectly decorate the Christmas tree and act as both lights and small decorations in one. The length of up to 30 metres allows you to stretch the chain between trees in the garden or along the perimeter of the terrace. Selected types of chains are offered with **8 to 64 light modes**, a remote control or an integrated timer, so that the chain will light up at regular intervals. For chains with **RGB function**, you can change the colour of the lights according to your own preferences.

Christmas  
and Decorative  
LED Lights

# TRADITIONAL AND GARLANDS

Chains

*page 106*

Acrylic Garlands

*page 108*

Classic Christmas with a modern twist! If you remember the older type of Christmas lights, you will also remember how challenging they were to untangle, and when one of the bulbs burst, the whole string stopped working. Now, however, the situation is completely different and with the new „**Traditional**“ range we delight all lovers of retro bulb lights, which we offer in LED technology. This is a guarantee of long life and financial savings. But if you are serious about your Christmas decorations and don't want to stop with a decorated tree, reach for the acrylic garlands, which are made for decorating and lighting up windows.

and Home

# LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

There are never enough decorations at Christmas. Almost all of us want to make it clear that we are looking forward to the Christmas holidays. That's why it's essential to decorate your windows with lit hanging decorations, such as paper stars or typical candle holders and lanterns, which create an elegant look and brighten up any room at the same time. You can also choose from advent calendars or light-up figurines that are sure to delight children. Most of the interior decorations are battery-powered, so you don't have to worry about obstructing cables so nothing gets in the way of a perfect decorating experience.

Memorial

*page 196*

With outdoor decorations, you will provide a fabulous spectacle not only for the neighbours, but also for passers-by. For garden owners, we offer light-up characters and animals that will be especially appreciated by the little ones. For a more subtle decoration, you can use a wide selection of pinnable garden decorations or hanging garlands in the form of stalactites and party bulbs. On the other hand, for those who want to be unmissable, we recommend projectors for lighting the whole house. All decorations come with a 3–5 m long power cord, so you can turn on your light decorations conveniently from your garage or house.
